PROFESSIONAL SUMMARY

A Dedicated and Motivated individual seeking opportunities in the IT field, with a strong foundation in programming and problem-solving. Skilled in building applications and exploring modern technologies, with a focus on efficient, scalable solutions. A quick learner with a collaborative mindset, committed to writing clean, maintainable code and continuously growing through new challenges and improving myself towards technologies.

EXPERIENCE

Generative AI Intern, CoderRoots 01/2026 – Present

- Worked on Generative AI applications using LLMs, LangChain, Prompt Engineering and Python to build AI-powered solutions, chatbots, and automation features.
- Collaborated on developing scalable and user-friendly AI functionalities.

Python Trainee, 07 Services 06/2024 – 12/2024

- Completed the 6 months training, developed skills in Python, Machine Learning, Deep Learning(CNN, RNN, ANN) and NLP concepts along with Data Science and hands on experience in Projects.

TECHNICAL SKILLS

AI/ML & Development — Python, GitHub, NLP, OpenCV, Deep Learning, SQL, Data Structures | AWS (Amazon), EC2, S3, VPC, EC2 Instance Configuration, Auto Scaling | Vector Databases (ChromaDB, FAISS), Backend Development | Transformers (Hugging Face), Python Streamlit, MLOps, AI Workflow | Agentic AI (LangGraph), Langchain, LangServe & LLMs | FastAPI Deployment, N8N Automation Workflow with API

EDUCATION

B.Tech Computer Science & Engineering | CGPA: 8.42 09/2022 – 2026
DAV Institute of Engineering and Technology Jalandhar

12th Grade | Percentage: 84.4% 03/2021 – 07/2022
Dayanand Model Sr. Sec. School, Dayanand Nagar Jalandhar

10th Grade | Percentage: 80.8% 04/2019 – 04/2020
Dayanand Model Sr. Sec. School, Dayanand Nagar Jalandhar

PROJECTS

Authentic Religious Q&A RAG Chatbot

- **Krysha AI:** Working on Mahabharata Chatbot using RAG & Agents with Vector Database (37,800+ chunks), React Frontend achieving ~80-82% accuracy, enabling fast and context-aware knowledge retrieval for users/clients.

ChatBot Projects

- **Retrivio AI:** A Multiple PDF RAG Bot for accurate answers to student's queries of their pdfs uploaded and can ask about that.
- **AI Study Buddy:** A scalable AI chatbot using LangChain, FastAPI, and Streamlit with Gemini model integration for real-world use cases and answers. <https://github.com/abhijay-10/AI-Study-Buddy>

Google Mediapipe Projects

- **Intelligence That Never Sleeps:** Built a real-time driver drowsiness detection system using OpenCV and MediaPipe with Streamlit for monitoring and eye tracking. <https://github.com/abhijay-10/Drowsy-Detection>
- **Gesture Talk:** Developed a real-time sign language recognition system using OpenCV and MediaPipe for accurate gesture detection. <https://github.com/abhijay-10/Sign-Language-ASL>

AI Doctor- Automated Healthcare Diagnostic System

- Developed an AI-powered healthcare system for patient health assessment, multi-disease prediction, and intelligent symptom analysis using Machine Learning and predictive analytics techniques. <https://github.com/baljinder-26/Ai-doctor>

KEY SKILLS

Problem Solving — Solve problems efficiently & effectively

Team Collaboration — Teamwork and collaboration

Communication — Good Communication Skills: Able to communicate confidently

ACHIEVEMENTS

Verbal Commendation, IMUN - International Model United Nations

- Got 3rd position in Verbal Commendation at IMUN 12.0 while representing as a United Nations Delegate.

National Mathematics Day 2025

- Achieved 2nd position in project display and 3rd position in Quiz Competition.

Hackathons

- Participated in multiple hackathons, collaborating on innovative projects involving AI, software development, & problem-solving.

NEC, IIT Bombay

- Participated in E-Cell at National Entrepreneurship Challenge.
